1.2 Software Setup Notes

■ Workstation

This course was created using Windows 10 Enterprise as the operating system. Other operating systems described above may be used and should not impact the flow of the course.

This course was created with a complete installation of Office Professional Plus 2016, as well as a complete installation of Visio Professional Plus 2016.

The workstation should be configured to connect to the Internet to accommodate the exercise in section **1.3 Identifying Window Components** pertaining to **Using the Help System**, and in section **10.2 Working with Hyperlinks** pertaining to **Creating Hyperlinks**.

The workstation should be configured with a printer driver.

1.3 Classroom Data

Run the class data archive **UA_F160en_data.exe** for this course to install the class data to the **C:\UA_F160en_data** folder. The table below indicates the classroom data files that are included in the archive, as well as the section in which the file is first opened for use.
